About Visualfy.

We are a Spanish company dedicated to creating technology for people who are hard of hearing. We have developed an algorithm, unique of its kind, based on artificial intelligence, able to recognize sounds and

translate them into visual alerts on any connected device. We work each and every day to better Visualfy Home, and to develop new products and exciting features that will improve our user's day to day life.

Visualfy Home.

Visualfy Home is a sound recognition system devised for hard of hearing people's homes. With only one system, it is able to recognize sounds such as a doorbell, a telephone, an alarm clock, a fire alarm or a baby crying, alerting the user through flashing colours and vibrations ,which are totally customizable, on any connected device.

Put your feet
up when you
get home,
Visualfy will
listen for you.

OTHER BRANDS

**Multiple
devices**

VISUALFY

**Just one
system**

Unlike other solutions that require buying and installing multiple devices, Visualfy users can have their homes entirely adapted with a single installation-free system, with ongoing sound and feature updates at no additional cost.

Smart Tv's

Smart
Watches

Vibrating
pillows

When Visualfy Home detects a sound, it sends an alert to the device chosen by the user, from the latest mobile phone to the most innovative smart watch or smartband. That way, not only does the hub light up, but the alerts can be adapted to the user and move around as they do.

Android / iOs / Wear OS / Phillips Hue

We are continuously working on new integrations so the Visualfy family of compatible devices keeps growing. Stay Tuned!

Why be a Visualfy distributor?

- 1 We design and produce in Spain.
- 2 Manufactured by Inelcom, a company with over 30 years of experience on the market and a supplier for well known companies such as Telefónica.
- 3 Stand out and increase your sales with an innovative, high demand product.
- 4 Customer service in Spain.
- 5 Customer Service in Sign Language.
- 6 Training and advertising support.
- 7 Work with a Bcorp Corporation, recognized worldwide for its social impact.

visualfyhome A responsible company.

Much more than a responsible company.

We are part of the international Bcorp movement. We believe in another way of doing business, in generating a positive impact in the environment and measuring success by social impact, not just by economical indicators. We have been recognized as one of the best companies for the world by Bcorp. We dedicate 0.7% of our profits to training courses for young deaf people in new technologies. We believe that education and labor integration is the key. We are a team of deaf and hearing people, because only together we can create the world we imagine.
